

A diagram illustrating the components of an operating system. A central green hexagon is labeled "Système d'exploitation". Surrounding it are four other hexagons: a light blue one at the top labeled "Applications", a medium blue one at the top right labeled "Processeur", a dark teal one at the bottom left labeled "Périphériques", and a medium blue one at the bottom right labeled "Mémoire". The central hexagon is the largest and overlaps with the other four.
